Hopefully, one of the Windows 7 product codes on this Windows key ultimate post has enabled you to activate your copy so you can access all the features it has to offer. As mentioned above, if you don't find a working key, visit this page later for updated keys. However, if you don't have a Windows 7 Professional product key, you'll still activate the Windows 7 professional without a product key. Read on to learn the activation method. Activate Windows 7 Without product keyIf you've seen, getting a working Windows 7 key is pretty easy. This post has more than enough product codes for Windows 7, and we update them regularly. However, using an activation key is only one way to activate Windows 7 Professional. You also activate the Windows 7 professional without a professional product key of Windows 7. You don't have to be technically savvy to get this done. Follow these steps. Find and delete a SLUI fileThe first step you need to take is to find and delete SLUI. Here are the steps to guide you through the process:Go to the folder running your Windows (C:/Windows)Find the System 32 folder in the Windows folder, and open theUse of the search tool in the file browser to find SLUI Select the SLUI file and delete itBy deleting the SLUI file, you've deleted your previous activation recordIf you don't delete this file, you may need to create the owner to delete it. Read on to see how. Here are the simple steps that guide you through the process:Go to your file administrator and right-click the SLUI fileSelect properties in the new window, Choose the Security tab and click the Advanced button to open more optionsNow click the Owner tab in the new window And select the option to select the current user as the owner of the fileClick the Apply button and close all windows Go to the file manager and open C:/Windows > System32 folderClicks on the SLUI file and choose PropertiesCollow steps 2 and 3 highlighted above and open the ProtectKies users choose tab and select the EditU user permissions optionGive the current user 'full control.'Close windowsGo to the SLUI file and deleteNow activate Windows 7 without a Windows 7 product key. Go to the next step to learn how to activate Windows 7 without activation activation are now free to activate your Windows 7. Please note that you don't need a windows 7 professional product key to activate the Windows 7 professional here. This activation method includes typing a number of commands on the CMD.Here are the steps you need to follow:Click the Start Type Run button in the search box to open RunPut CMD in the dialogue box and press enterYou see a new window where you type the slmgr -rearm of your command type in CM DD and press EnterWait for a few seconds and then restart your computer Restart your computerNow follow steps 1-5 and type 'slmgr -ato' in CMDHit Enter and read the message from your desktopThe message should read: 'You successfully activated Windows.'FAQCan I get Windows 7 for free? You can easily download an ISO image of Windows 7 for free from microsoft's official website. However, you must provide the serial key to the Windows 7 you purchased or a key that came to your computer. Can I move my Windows 7 license to another computer? Yes, but only if it's a retail license. It is possible to move it to another computer provided you only install it on one computer at a time. You must delete the previous installation of Windows 7 on the old computer. If you activate on another computer, the main product windows 7 on the old computer is automatically deactivated. The license works on both 32- and 64-bit systems, but you only install one at a time. However, if it's an OEM license, don't move it to a new computer. These licenses are not transferable. To install a new computer in Windows, you'll need to purchase another copy of the Windows 7 professional. If it's a retail license, simply respond by phone:Click Start button and enter slui.exe4 in the Press Your Country/Region search box, press your country/region and choose phone activation, dial the number that appears on your screen, and wait to speak to a real person. What happens if you don't activate Windows 7? Not activating your copy of Windows 7 leaves you with somehow usable but annoying Windows 7 professional. After the 30-day free trial, Windows 7 will constantly ask you to enter a valid product key to activate. You'll also get a notification that the Windows you're using isn't real every time you open Control Panel. How do I download Windows 7 without a product key? Microsoft will only allow you to download a Windows 7 ISO image from the Microsoft website if you have a legitimate professional product key for Windows 7 in retail.
